Attend**

Your road to compliance

Whatever your area of interest, the extensive range of conference topics allows you to select relevant content for ensuring compliance and progressing operations.

Multi-stream conference covering themes including:

INGREDIENTS

Sourcing, Supply and Testing of APIs

Crafting a Gastric-Resistant Coating from Natural Ingredients: An Innovative Wax-based Enteric Coating for Pharmaceutical and Nutraceutical Oral Product

FORMULATION

Pharmaceutical Cocrystal Synthesis via Continuous Flow Mechanochemistry: An Investigation into Reactive Twin Screw Extrusion

Optimization of Methylene Blue Encapsulated Liposomes: Comparison of MCD and PG Technologies of High Pressure Homogenisation Technique

3D PRINTING

Industrial 3D Printing in Pharmaceutical Manufacturing

Engineering Lipid Based Nanoparticles Using Microfluidic Arrays

COMPLIANCE

How the New EU Human Medicines Regulations Will Impact the Industry

Data Integrity and Computer Systems Validation Challenges for Start-Ups Heading for Regulatory Licensing

PERSONALISED MEDICINE

37 mg - the Thin Red Line Between Health and Harm in Medication Dosing

The Future of Pharmaceuticals: Pharmaceutical 3D Printing for Personalised Medicine

GMP

Annex 1 - Current & Future Deficiencies

Getting Our Procedures Right - Involving the End-User at the Writing Stage

RISK AND QUALITY MANAGEMENT

GMP and GDP Auditing - What to Do at the Planning Stage

The Effective Use of ICHQ9(R1) Quality Risk Management Principles in Pharmaceutical Manufacturing and Distribution

SUSTAINABILITY

Decision Making for Process and Product Sustainability in an Uncertain World

Helium Crisis?

+Many more

Workshops

Sessions Include:

Getting Started: Transitioning from Document-Centric to Data-Centric Drug Development

Protecting People, Protecting the Environment: Designing Sustainable Pharmaceutical Lifecycles for the Future European Regulatory Landscape

+Many more

Manufacturing & Packing Theatre

Papers Include:

AI for the Real World

Computer Software Assurance: FDA's New Approach to Computer System Validation

Accelerate Time to Market: Why it's Essential to Select the Correct Primary Packaging for Your Formulation at the Earliest Stages of Development

Electronic Leaflets and the Digital Twin

Artwork and Labelling Management

+Many more

GDP Theatre

Papers Include:

Risk-Based Approaches in Auditing

GDP - The QMS and Data Integrity

Managing the Change: From In-House Warehousing to a Third-Party Logistics (3PL)

Culture of a Business & Risk Management

The Pharma Supply Chain & Risk Management

Changing the Quality Culture of a Business

The Supply of Medicines Across the UK – The Impact of the Windsor Framework

Cold Chain Storage Facility – How to Choose a Supplier

+Many more

Certificate of attendance available for your CPD record

Kateryna Holovnia, Head of Procurement, Dechra Ltd

Risk Mitigation of API Supply, Shortages Analysis

Keynotes

Professor Dimitrios Lamprou, Professor, School of Pharmacy, Queens University Belfast

Emerging Technologies Transforming and Reshaping Sustainability in Pharmaceutical Manufacturing

Martin Lush, M Lush Consulting

Artificial Intelligence in a G x P Environment and its Impact on You - How to Stay Relevant in the AI World

Create opportunities

Network with industry leaders and like-minded professionals to develop relationships and business opportunities. With a programme of Workshops, three Networking zones, an Awards Dinner and hundreds of industry professionals in attendance, there are countless opportunities to make a meaningful connection.

Register now

Free-to-attend

Making Pharmaceuticals and Distributing Pharmaceuticals are FREE to attend. Register for either and get access to both.

Benefits of attending

- Meet over 100* companies and source the latest information for products and services.
- Find what you need to help tackle the day to day issues that you face in your role.
- Engage with both current and prospective suppliers to get a true assessment of the market.
- Bring yourself up to speed on the issues that could affect your business.
- Take advantage of the Conference programme and benefit from the advice and expert opinions presented by industry leaders.
- Complimentary parking and breakfast when you arrive before 10am.

The venue

The Coventry Building Society Arena has some of the finest transport links in the UK, making it an easily accessible location no matter where you are in the UK - or if you are traveling internationally.
